FIGHT ONE MORE round. When your
feet are so tired that you have to shuffle back to the
center of the ring, fight one more round. When your
arms are so tired that you can hardly lift your hands
to come on guard, fight one more round. When your
nose is bleeding and your eyes are black and you are
so tired that you wish your opponent would crack you
one on the jaw and put you to sleep, fight one more
round—remembering that the man who always
fights one more round is never whipped.
